

Ampeire & Co. Advocates is conscious of the cost of delivery of legal service to its clientele in a country like Uganda.

We bring a unique legal practice experience that balances the value of legal service and the client's passion and capacity to retain world class legal expertise. Issues relating to fees, costs and disbursements are discussed in earnest with the client depending on the nature of the service required, the requisite manpower, the complexity of the matter, the time spend, all in conformity with the Advocates (Remuneration & Taxation or Costs) Rules.
